Specification Sheet

ALCOHOL-BASED SANITISER

QAC-FREE

USE

Unperfumed liquid disinfectant cleaner.

DESCRIPTION

Ready-to-use, alcohol-based, disinfectant cleaner for use in the food processing, catering and healthcare industries. Suitable for use on hard washable surfaces, such as stainless steel, polished metal, painted surfaces, glass, most plastics and ceramics.

FEATURES & BENEFITS

- QAC-Free, ready-to-use unperfumed sanitiser
- Does not contain quaternary ammonium compound
- Kills bacteria and cleans in a single-stage application
- Passes EN1276 with 30 second contact time. Also passes EN13697 and EN1650
- For use in food processing, catering and healthcare establishments
- Quickly evaporates, leaving the surface clean, dry and disinfected
- Suitable for a mid-shift disinfectant

HOW TO USE

Use undiluted. Spray directly onto surface and wipe with a clean cloth or disposable paper towel. Allow to air dry.

Passes EN1276 (under dirty conditions with a 30 second contact time), EN13697 and EN1650. See microbiological report for further test information and contact times.
