

## BEER PIPELINE CLEANER

### USE

Alkaline & Chlorine based beer pipeline cleaner.

### DESCRIPTION

Highly effective beer pipeline cleaner, formulated to remove yeast, protein & residue from the dispensing system. Suitable for use through the traditional hand pump system or pressurised keg beer lines.

### FEATURES & BENEFITS

- Non-tainting, beer pipeline cleaner & sanitiser containing alkali & hypochlorite
- Removes heavy beer residues from dispensing pipes & valves
- Highly active to ensure a thorough cleansing action without damaging PVC pipelines

### HOW TO USE

Dilute 80ml per 5 litres of lukewarm water (1:63). Draw solution through pipes & leave for 10 minutes. Flush through with clean cold water until all residue is removed & the emerging water is perfectly clean.

### TYPICAL PRODUCT DATA

Appearance: Liquid  
Colour: Clear colourless  
Odour: Characteristic hypochlorite  
pH – undiluted: 13.5  
Shelf Life Unopened: Not less than 1 year

### PACKAGING

BB140-5 2 x 5 Ltr

### COMPOSITION

Contains a blend of sodium hydroxide, sodium hypochlorite & sequestering agents.

### BIODEGRADABILITY

All surfactants used in this product comply with the current European Regulations concerning biodegradability and protection of the environment.
