

# PREMIUM SAFETY FLOOR CLEANER

## USE

Heavy duty, alkaline cleaner for safety floor cleaning and floor maintenance.

## DESCRIPTION

Unperfumed, heavy duty alkaline cleaner & degreaser. Ideal for use in the catering industry. Rapidly removes grease, dirt & heavy soiling from a variety of washable surfaces including safety floors, vinyl, rubber & concrete.

## FEATURES & BENEFITS

- Ideal for removing ingrained dirt, grease & marks from non-slip safety floors
- Suitable for use on a variety of surfaces including vinyl, rubber & concrete
- It is unperfumed & therefore highly recommended for use in kitchens, food processing areas & wherever food is handled or served

## HOW TO USE

General Cleaning: Dilute 25ml per 5 litres of hot water (1:200). Mop or wipe surface.

Cleaning Safety Floors & Removing Grease: Dilute 100ml per 5 litres hot water (1:50). Damp mop or machine scrub using a green pad.
