

BB110-2

Specification Sheet

Professional Destaining Powder – 2.5kg

USE

For use on all types of crockery.

DESCRIPTION

A white, free flowing powder designed to effectively remove tanning stains from crockery, tea urns and utensils.

FEATURES & BENEFITS

- Effectively removes stains from crockery
- A concentrated formula for economy
- 60g of powder makes 5 litres of solution
- A 30-minute soak is all that's needed
- Use to clean the tea urn as well

HOW TO USE

Crockery – Fill a sink with very hot water (above 65 °C) and dissolve 60g of Destaining Powder per 5 litres of water. Immerse crockery and leave to soak for 30 minutes. Rinse thoroughly in a sink of fresh water and then wash in the dishwashing machine.

Tea Urn – Fill to normal level with very hot water (above 65 °C). Add 60g of Destaining Powder per 5 litres of water and leave for 30 minutes. Empty and thoroughly rinse out.

DO NOT USE ON ALUMINIUM.
