

WASHROOM SANITISER

USE

Acidic descaling toilet cleaner and hard surface cleaner for washrooms.

DESCRIPTION

Multi surface, thickened toilet & washroom sanitiser. Removes limescale, body fat & general soiling from a variety of surfaces.

FEATURES & BENEFITS

- Thickened, multi surface, general purpose washroom sanitiser
- Safe for use on a variety of surfaces including porcelain, stainless steel, chromium, ceramic & quarry tiles
- Provides a complete sanitising system as it kills odour & bacteria at source, leaving a clean refreshing fragrance
- Kills bacteria. Passes EN 1276
- When used on a regular basis it will help prevent the build-up of scale & also keep drains & outlet pipes free from offensive odours

HOW TO USE

General Cleaning: Dilute 100ml per 5 litres of hot water (1:50). Wipe surface with a damp cloth. Rinse with clean water.

Toilets & Urinals: Apply undiluted onto surface, leave for a few minutes, agitate with brush if necessary & flush with clean, cold water.
