

COSHH Risk Assessment

JANGRO FABRIC SOFTENER (5 litre)

Product Code: BP060-5

PROCESS STAGE	POTENTIAL RISK	CONTROL MEASURES	ACTION REQUIRED
DELIVERY			
Packaged in 5 litre polythene containers in a cardboard carton. Delivered in single containers if required. Polythene containers incorporate handle for carriage. Product is supplied ready to use.	Risk of spillage if the container is dropped. Risk of injury to user if dropped.	Trained employees should handle only single containers at any given time. Take care not to drop the containers. Ensure that the cap is secure at all times.	Transfer containers to store immediately following delivery. Do not leave containers in areas where users of the building will come into contact with them.
STORAGE			
Containers must be stored in a cool, dry storage area. Product must be kept stored in its original container.	Minimal risk of spillage if caps are firmly in place. Caps are not child proof.	Keep containers in secure storage areas. Keep packaging tightly closed and dry. Restrict access to storage areas to authorised personnel.	Use oldest stock first. Make regular checks to ensure that storage area is clean and tidy. Make regular checks to ensure that containers are not damaged or blown.
USAGE			
Product can be dispensed directly into a feeder drawer of an automatic washing machine. Product can be used in conjunction with an automatic dosing system.	Risk of eye contact. Risk of ingestion. Risk of skin contact. Risk of spillage onto floor and into drainage system.	Handle the containers with care. Wipe up any spillages or splashes immediately. Ensure that the container is returned to store when not in use. Always read the manufacturer's instructions prior to use.	Ensure that operatives are aware of location of First Aid facilities and personnel.
DISPOSAL			
Empty containers can be disposed of as normal waste. Recycle all containers wherever facilities are available.	Small risk of skin or eye contact. Risk of contamination with other substances.	Do not store any other material in the empty container. Ensure that the container is exhausted before disposal. Ensure that the product is not disposed of via a rainwater sewer (ie drain outside the building).	Ensure that operatives wear Personal Protective Equipment at all times during disposal.
