enviro

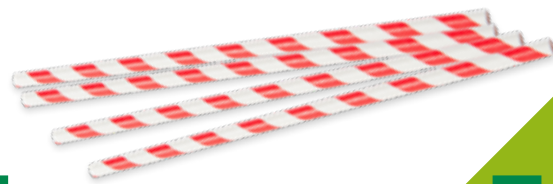

Our range of specially formulated products that have a minimal impact of the environment.

Jangro has been working hard with its suppliers to ensure that many of its products are specially formulated to have a minimal impact on the environment. This includes manufacturers complying with ISO accreditation and EU regulations, covering biodegradability and protection of the environment; use of recycled materials and

consuming less energy during production whilst reducing emissions to air, water and land.

Jangro is ISO 14001 accredited with environment management systems in place for continued improvement within working practices.

products

For every tree cut,
4 are planted,
and up to 20 are
naturally seeded.

I AM A 100%
**ZERO

PRODUCT**

This brochure has been produced by printers who are fully ISO 14001 and FSC/PEFC accredited. Vegetable based inks were used in the printing process. The paper is made from FSC® certified and traceable pulp sources and has been manufactured in accordance with ISO certified standards for environmental, quality and energy management.

Jangro's soluble sachets are part of our ever growing enviro range, saving the environment and saving you money at the same time.

- 100% biodegradable and phosphate free
- Range of products for different applications
- No chemical spillage risk
- Easy and lighter to transport
- Simple dosing, one sachet per application
- Tighter budget usage and tracking
- No costly dispensing equipment needed
- Re-useable trigger sprayers, significantly reducing plastic waste from single-use bottles
- Clear simple instructions for ease of use

Concentrate Bottles
Available in 1 litre bottles or box of 4 bottles.

Just 1 bottle of Jangro's enviro concentrate

...is the equivalent of 100 spray bottles, 70 litres of chemicals and 82kg in weight.

...this means fewer deliveries, lower CO₂ emissions, smaller bottles making less waste

Jangro's concentrate cleaning products deliver chemicals easily and economically.

Trigger Bottles

Use these pre-printed re-usable trigger bottles to dilute solution ready for spray cleaning.

Wall Shelf

Designed to fit 1 litre bottles and trigger bottles.

- High concentration, low dosage
- Very economical
- Accurate dosing method
- Portable, easy to handle bottle
- Overcomes storage issues
- Pleasant fragrances
- Reduction in packaging
- Lower emissions incurred transporting ready to use liquids
- 1 litre bottle provides up to 100 trigger spray bottles or 50 x 5 litre buckets of cleaning solution

Food Packaging

We have a large selection of environmentally friendly catering disposables, providing solutions for tabletop display and food packaging.

As part of our ongoing commitment to ecological values, we have extended our product offering using materials with lower impact on the environment.

We have three designs to choose from; Kraft, Savori™ and Newsprint packaging. Each product has its own unique eco credentials.

COMPOSTABLE (16 WEEKS)
All the materials in these products are compostable within 16 weeks.

RECYCLED LID
Lids are made from recycled plastic material (rPET).

RECYCLABLE
The plastic used for these products are recyclable.

RECYCLED BOARD
The board for these products is made from recycled material.

RECYCLABLE BOARD
The board for these products is recyclable.

BIODEGRADABLE BOARD
The board for these products is biodegradable.
