

Enviro Soluble Sachets

enviro
soluble sachets

Jangro's water soluble cleaning products will transform the way you buy, use and store your everyday essentials. With so many features and benefits from increased safety to decreased cost and the choice between the trigger or bucket range, this innovative suite of products is extremely popular.

SAFE

The products are up to 80 per cent lighter than equivalent detergents, meaning heavy lifting is a thing of the past. In addition, there is no risk of spillages from chemical mixing, which also eliminates exposure.

EFFECTIVE

The range is biodegradable and phosphate free with 100 per cent effective formulations. What's more, the sanitiser / disinfectant conforms to EN1276 and the entire range is manufactured to ISO 14001 / 9001 standards.

SUSTAINABLE

A huge 70 per cent reduction in packaging and no downtime waiting for costly dispensing equipment to be repaired are just two of many sustainable aspects of this impressive range.

COMPACT

Create up to 37 per cent more storage space in delivery vehicles and those all important cleaning cupboards with just three boxes of products instead of 60 cases of ready to use detergent.

PRACTICAL

Designated, reusable trigger spray, colour coded products and tailor made cleaning plans make this range super easy to use with a minimum amount of training required.

AFFORDABLE

Transportation costs can be shrunk by 75 per cent and accurate dosage will lead to decreased water costs and more effective work planning.

Start benefitting from all these features, and more, today!
