

BF030-1 Probiotic Washroom Cleaner

Washroom
Surfaces

1 Place safety sign.

2 Use appropriate PPE as indicated in the safety data sheet.

3 Invert the dosing bottle to fill the measuring chamber, then invert trap desired amount.

Tilt, using the chamber to dispense correct measure. Dilute with cold water 1x10ml (1:60) to 600ml of water.

4 Spray solution onto cloth or directly onto surface, then wipe. No rinsing necessary.

5 Remove safety sign.

Areas of Use
